Use now instead of at this point in time. Daily Log a log kept every day that records the play and learning in the classroom Documentation developed by or with the children when observing children during documentation, the child's lens of the observation is used in the actual documentation Individual Portfolios documentation used to track and highlight the development of each child Electronic Documentation using apps and devices to share documentation with families and collaborators Transcripts or Recordings of Conversations using recording in documentation can bring about deeper reflections for both the educator and the child Learning Stories a narrative used to "describe learning and help children see themselves as powerful learners" [17] The Classroom as Documentation reflections and documentation of the physical environment of a classroom. Technical writing is information delivery. Avoid using padding, or filler. Example Unclear: The unwise walking about upon the area near the cliff edge may result in a dangerous fall and therefore it is recommended that one remains a safe distance to maintain personal safety. Clearer: Danger! Exceptions for technical writing: If the audience habitually uses a particular metaphor, simile, or other figure of speech, you can use it too. Active voice is the standard for technical writing. Chew the burrito well. If scientific jargon is a standard, ensure you follow it. Service Catalog and Service Portfolio ITIL Documentation include such as feasibility report, technical documentation, operational documentation, log book, etc. One must masticate thoroughly to ensure the burrito will have been eaten completely. The document can be a wiki page, MS word document or other environment. Active Various authors wrote this Wiki. Understanding present tense[ edit ] Computers have no past, and no future. Active Passive B. Evaluate your writing: write, review, and repeat. In the UK and most other countries, terminal punctuation usually goes outside the quotation marks unless part of the quotation. Never use a foreign phrase, a scientific word, or a jargon word if you can think of an everyday English equivalent. The result is a detailed description of how the software is designed, how to build and install the software on the target device, and any known defects and work-arounds. Important information first[ edit ] Important information at the beginning of a sentence makes it easier to understand. Finally, a testing section to document how the software was tested. Common intransitive verbs[ edit ] The following verbs cannot be used in passive voice: appear, arrive, come, cry, die, go, happen, occur, rain, sleep, stay, walk. If it is possible to cut a word out, do so. Avoid verbosity[ edit ] Write short, succinct sentences. Split long sentences into two or more chunks. Yes Long sentences[ edit ] Long sentences tax the brain and make remembering information difficult. Technical Writing at Wikiversity Write clearly[ edit ] George Orwell 's general writing rules work for technical writing: Never use a metaphor, simile, or other figure of speech you are used to seeing in print. Documentation is an integral part of the cycle of inquiry - observing, reflecting, documenting, sharing and responding. Passive This Wiki has been written by various authors. A sentence that lists three or more items may work better as a bulleted list. When we read active voice, we know who does what to whom.
